

# Release Notes

## Pinnacle 100 AT Hosted Mode Firmware

*Version 1.0*

*Apr 2020*

Release notes are a summary of new and enhanced features, resolved issues, and known issues that are not resolved in this firmware version. This release note describes the changes and enhancements to the Pinnacle 100 AT Hosted mode firmware in reverse chronological order.

For each version (excluding the initial version 1.0) there are subsections for 'New Features', 'Bug Fixes' and 'Known Issues'.

### VERSION 1.0 (APR 2020)

This firmware is built to work with v7.0.1 of the S140 Softdevice from Nordic Semiconductor which is BT Spec version 5.1 qualified. This firmware combines multiple images (combined build #19, bootloader version 3, AT interface application version 1.01, AT interface library version 1.20).

#### Known Issues

- No known issues
