

Regulatory Release Notes

LWB

Version 9.15.0.14

Scope

This document indicates the countries supported by the radio firmware. Support for a specific country does not indicate that the radio has received modular certification; customer in-product testing may be required to allow shipment to that country. Refer to the product's [certifications documentation](#) for all currently existing grants and declarations.

Regulatory Process

Regulatory testing must be carried out using the correct firmware and matching regulatory test utility.

This document provides regulatory release notes for the following LWB radio software package:

- backports-laird-9.15.0.14
- laird-lwb-etsi-firmware-9.15.0.14
- laird-lwb-fcc-firmware-9.15.0.14
- laird-lwb-jp-firmware-9.15.0.14

This document also includes all previously distributed regulatory release notes for this product.

Regulatory release notes are a summary of regulatory support for the latest firmware version showing new and enhanced regulatory changes between firmware versions. Refer to the product's [certifications documentation](#) for all currently existing grants and declarations.

Regulatory support for the specific country requires the use of the appropriate firmware package

- [Software Version 9.15.0.14](#)
 - [Software Version 8.5.0.7](#)
