Subject: Ezurio ST60-2230C and ST60-SIPT Regulatory Test Coverage.

To Whom It May Concern:

This letter declares that the Ezurio ST60-2230C M.2 2230 form factor module and the Ezurio ST60-SIPT System-in-Package (SIP) module are covered by common regulatory testing and test reports.

The regulatory testing and reporting are in common since the Ezurio ST60-SIPT is placed onto a M.2 2230 form factor, carrier Printed Circuit Assembly (PCA), thereby, containing the ST60-SIPT. The ST60-SIPT requires the M.2 2230 form factor carrier assembly in order to realize the break-out connections for operational control signals and for radio port extensions. The common test reporting references both model numbers and the configuration diagrams/photographs demonstrate the physical co-configuration of both model numbers.

Sincerely,

A handwritten signature in dark ink, appearing to read "Brian Petted", is written over a horizontal line.
