

End of Life / Withdrawal Notice

DATE: 19th August, 2026

To Our Valued Customers:

Ezurio is officially announcing the End of Life (EOL) for the **BL54H20 Series**, which includes the part numbers listed below.

Ezurio is withdrawing our nRF54H20-based modules to align with Nordic's decision to focus the nRF54H20 SoC on a selected set of customers and applications. For the broader market, we will continue our focus on the nRF54L Series-based modules – BL54L1x / BL54LM2x product lines.

If you have an existing or planned project on the BL54H20, please let us know, and we will find the best path forward together with Nordic. For designs with comparable performance, we recommend our nRF54LM20B-based product family, the **BL54LM20B series**.

As this product family never made it into full mass production and only into a limited sampling stage, we will not be offering a LTB (last-time buy) for this product line.
