Vertically Polarized Omni Antennas
OC24527

DUAL-BAND VERTICALLY POLARIZED OMNI ANTENNA

The wideband OC24527 antenna offers full-band coverage for 802.11b/a/g/n and includes all hardware required to mount indoors or outdoors. The antenna provides the "no compromise" performance expected from a single-band radio system in a dual-band radio. While many dual-band antennas are a compromise between the two operating bands, the Laird Technologies OC24527 provides full-band coverage and omnidirectional coverage over both bands. With a design assisted by Laird Technologies’ proprietary optimization tools, performance and value are unparalleled.
