Power Output is Conducted. The antenna(s) used for this transmitter must not transmit simultaneously with any other antenna or transmitter, except in accordance with FCC multi-transmitter product procedures. This filing meets the SAR threshold exclusion set forth in KDB 447498 and therefore can be used in mobile/portable configurations at the distance specified in the filing. End-users and installers must be provided with transmitter operating conditions for satisfying RF exposure compliance.

900 MHz Band Operation includes DTS and Hybrid Modes of operation.

CC: This device is certified pursuant to two different Part 15 rules sections.
