

You will find more sample apps for the BL620 at GitHub by clicking [here](#). You will not need a GitHub account for this.

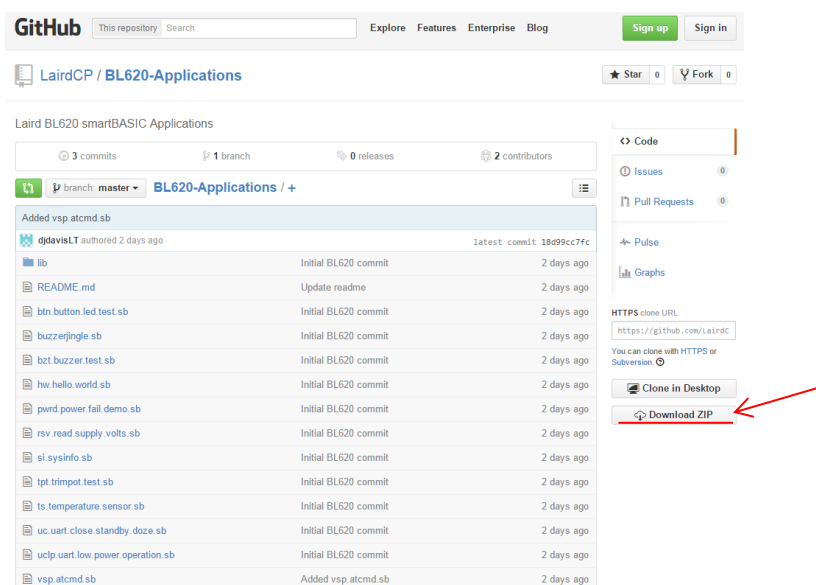

If you are not familiar with using GitHub, it allows you to either view the source code or download all of our sample apps to view or modify.

View the source code for each app by simply clicking the name of the file. [Fig.1]

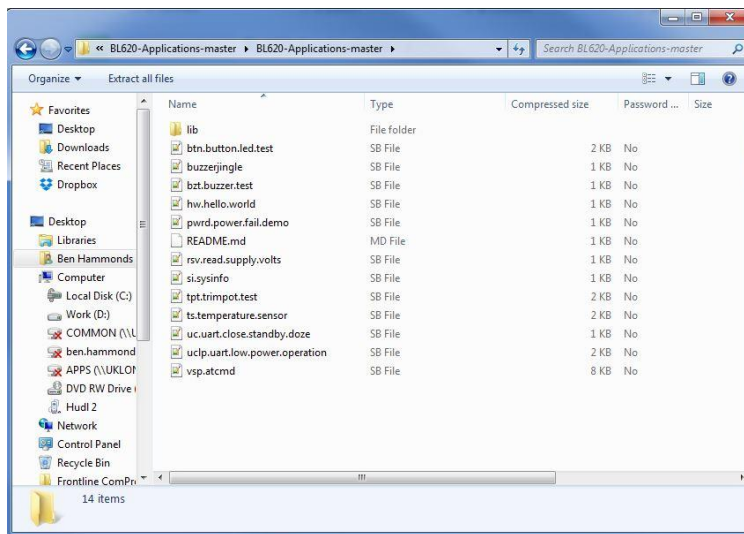

[Figure 1. Viewing the source code]

To download all of our apps simply click on the “Download ZIP” [fig.2] button in the webpage to get a snapshot of all the current versions of the applications.

[Figure 2. Download ZIP button]

Once the download is complete, navigate to the BL620-Applications-master.zip folder. You will find all of our sample applications in this folder [Fig.3]

[Figure 3. Downloaded folder]

We encourage you to fork and upload new apps for others to share.
