2 DESCRIPTION OF CHANGES:

The port arrangement on the bottom of the IP67 enclosure has been rearranged so that tightening of the center top cover screw was improved. Pictures of both the original and new arrangements are shown in Figure 1 and Figure 2 below. The 3 LEDs and Button Ports have been swapped with the Power Port.

![Figure 1 Original Port Arrangement](image1)

![Figure 2 New Port Arrangement](image2)

The information in this document is subject to change without notice.
3 **REASON FOR CHANGE:**

- The port arrangement on the bottom of the IP67 enclosure has been changed to improve the assembly process. With the original arrangement, it was difficult to install the center cover screw.

4 **ANTICIPATED IMPACT OF THE CHANGE:**

- None
5 **Method of Identifying the Changed Product:**

The revision level of the product is printed on the labels.

---

The information in this document is subject to change without notice.
No change to the kit labels since the revision is not displayed on the label. The revision is embedded in the barcode.
6 FACTORY EFFECTIVITY DATE:

Product with the new revision level will begin shipping in September 2018.
